

Project 6 Presentation

By

Eric Maher, Chris Manges, Shannon McCarthy, and Jenny Yi

Entity Relationship Diagram

Presentation

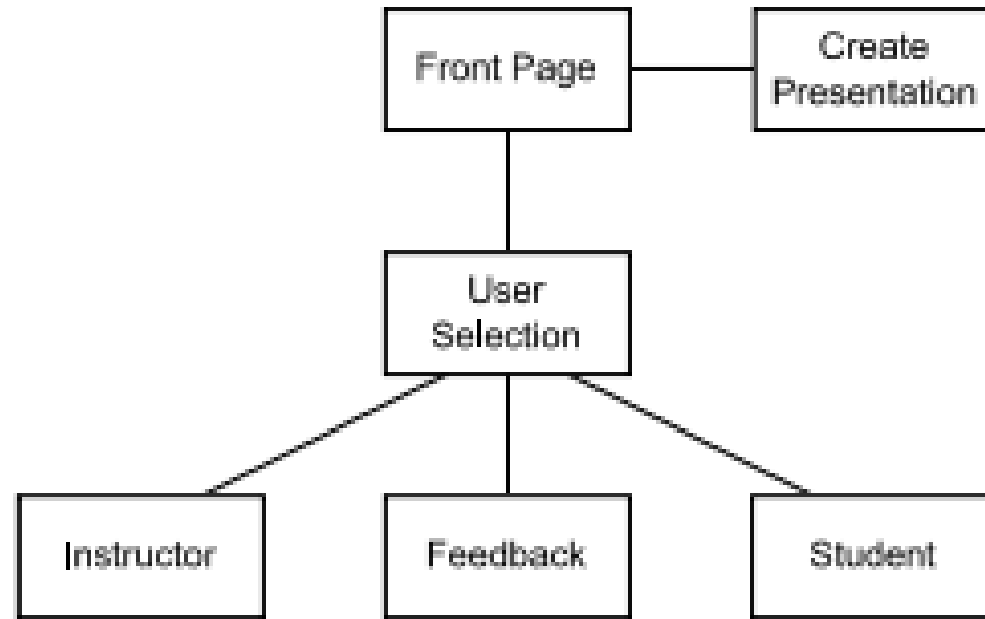

<u>Presentation ID</u>	Presentation Name	Student's Name	Date	Grade
------------------------	-------------------	----------------	------	-------

Feedback

<u>Feedback ID</u>	<u>Presentation ID</u>	Comment	Score
--------------------	------------------------	---------	-------

Relational Schema

User's View

Code Structure

- **Presentation**
- **Feedback**
- **Instructor**

Demo

Future Implementations

- **Authorization**
 - User name/ password
 - Log in/ log out
 - Roles
 - Instructor role (access to create presentation button, instructor tab)
 - Presenter role (assigned to presentation with account, can only add feedback to other people, only see their own feedback)
 - Audience role (can see presentations and add feedback, cannot see other people's feedback)
- **Group presentations**
 - Ability for instructor to create a group of students
 - All of those students have the “presenter role”
- **Ability to upload**
 - Powerpoint, videos, papers
- **Choice to make a public or private comment on presentation**
- **Associating presentation with specific course and class**
- **More styling/ better interface**
- **Show when a project has been graded/ cannot submit anymore**
 - Due date
